Sugar Corporate 6.5.5 Release Notes

Overview

This document describes enhancements to existing features, known and fixed issues, supported platforms, and acknowledgments for Sugar {{edition_full}} 6.5.5.

Feature enhancements

Enhancements to existing features for release 6.5.5 are listed below:

- Email checkbox in Edit and Detail View pages and Quick Create forms for Calls and Meetings records renamed to Email all Invitees Starting with Sugar 6.5, Meetings and Calls reminders can be emailed to all Meeting Invitees; the
- Meeting reminders sent to participants via email do not contain Description field information : Description field removed from the Meeting reminders email template; create a custom template to include the Description field in the email reminders if necessary
- Icons for multiple integrations displayed next to each other for better visibility in Accounts Detail View pages

Known issues

- Spaces in image file names : Spaces in company logo image files are not allowed due to security reasons (Administrators have the ability to select company logo image files in Admin>System>SystemSettings>SelectLogo)

Fixed issues

Due to the high volume of bugs fixed in Release 6.5.5, only bugs with escalations and High or Urgent Priorities have been listed below:

- 54891 : Shared Calendar displays the user's Activities only (instead of hour-by-hour availability) after upgrading from Sugar 6.4 to Sugar 6.5
- 51298 : Report filter on datetime type field This Year excludes Jan 01 for date type fields
- 55038 : Custom multi-select field created in Sugar displays as a drop-down list in mobile browser

-
- 55343 : Relationship field created in Studio does not display in the List and Detail View pages
 - 53147 : Sending Test Email with incorrect credentials in Admin>Email Settings does not display an error message
 - 54403 : Rebuilding config files for Full Text Search-enabled instances (using options in Admin>Repair) duplicates the FTS settings found in config_override.php>config.php without deleting the config_override.php settings
 - 54918 : Double arrows next to sub-panel labels in Detail View pages are incorrectly displayed on the right side of the labels
 - 54931 : Quote_stage_dom customizations in Admin>Developer Tools> DropDown Editor>quote_stage_dom breaks Quotes calculations

For more information on a bug or to provide feedback, use the [SugarCRM Bug Tracker](#). To view the complete list of bugs fixed in this specific release, run a search using 6.5.5 in the Targeted Release field. Look for the bugs marked Fixed in the Resolution field.

To report a new issue found in this release, use 6.5.5 in the Found in Release field. Check the Bug Tracker for known issues prior to submitting bugs. You will be able to update existing bugs with additional information, as necessary.

Supported platforms

For information on supported platform components, see [Sugar 6.5.x Supported Platforms](#).
